

...a world of solutions within reach.

6 May 2019

Dear Customers, employees and friends.

I am pleased to announce that WSO-Security and GrupoDC Solutions are now officially operating in a partnership. We are committed to enabling your success and delivering the benefits we expect from this merger: The idea of a deal between WSO-Security and GrupoDC Solutions made all the sense helping grow up foot print for both companies. The facts seemed clear: if the two firms joined forces, they would build a strategic path to create a competitive security company in Europe, Africa, North America and Latin America, one that could offer cost-efficient resources and one-stop shopping for many in need of contract security services, and the two companies had complementary strengths, for example; WSO-Security's integrated security offerings as local companies in Latin America, and GrupoDC Solutions corporate foot print in Europe, when added together, further strengthened the appeal of a merger. If you are based in America or Europe now you have the benefit to deal directly with us through our corporate representatives in US avoiding bureaucracy and additional costs.

We stay dedicated to answer our clients' needs, as we will continue to provide the same high quality security service on which we have built our reputation. I assure you that this step will in no way affect our company policies or manner of conducting business.

As with all important business decisions, we will work closely with our clients, partners and employees to make this process as smooth as possible. Of course, in the meantime our customers will continue to receive the same high quality security service, which they have come to expect.

Please let me take this opportunity to thank you again for being one of our most valued clients, and I hope that we will have the privilege to continue to serve you in the future. If you are not yet a GrupoDC Solutions customer, we hope attend all your future security needs for Europe, Africa, Latin America and the US from our corporate office or from any of our regional offices.

David Crevillén C.
CEO
